

Dear Sirs: I am a regular listener and strong supporter of K-LOVE Christian Radio and am writing this letter to keep it on the FM translators in Utica, NY instead of replacing it with low power FM.

Losing K-LOVE would be a major loss for my area. K-LOVE has served me and my fellow neighbors in so many ways. They have a 24 hour prayer line with 4 pastors on staff. This is a toll free number that has saved many lives. At their last fund drive, 4 people were saved from suicide and 8 marriages were saved. This is because of their commitment to family values and their prayer service and counseling service that they provide free of charge. They also provide families with good, clean entertainment and they are positive and encouraging. They are a big need and I, like so many in my community, would be lost without their broadcast. They are an invaluable service to have, especially in an area that is so deprived positive growth and spirituality. They are one of the few lights in this area.

If we were to lose K-LOVE I am sure it would negatively impact my community. K-LOVE is the only good radio station for families and even for single people. Where else can one get a spiritual education through the spots they use on K-LOVE, a full staff of people to pray for you and music that not only glorifies God but encourages: forgiveness, kindness, compassion, reaching out to others in need and so on?

Losing K-LOVE would be a travesty for Utica/Rome, NY. We need this radio station so much. I've seen people's lives transformed because of the existence of K-LOVE and because of their sincere love in reaching out to those in need. I've seen people healed, relationships reconciled and nothing more that positive impacts in the community because of this radio station. A lot of people depend on K-LOVE to get them through the day! I am one of them. I suffered from severe depression. My pastors told me to listen to praise and worship music, which is what K-LOVE provides. It brought me out of the depression! I am healing through their prayers and through their music ministry as is a friend of mine. We have a high crime rate in Utica/Rome. We have a rate of depression. I am sure this will only escalate if we lose K-LOVE. I know from first hand experience! I was lost without it when we had a power outage last summer. I called in panic and said "what happened?" With a sigh of relief K-LOVE assured me it was only temporary. Can I put it bluntly? I don't know what I would do without K-LOVE!!!!

Please don't take our light away! For some of us it is the only way we can see.

Thank you,

Michelle Aikin
